

## **Research Assistant in Industrial Management and/ or Engineering Design**

Frederick Research Center seeks to appoint a **Research Assistant** to work for the needs of a research project funded through the Research and Innovation Foundation of Cyprus.

The position is on a part-time basis, for a **Mechanical Engineering** graduate, who will be offered a twenty-four (24) month contract, with the possibility of extension for another six (6) months.

**Deadline of Submissions:** 31/10/2020

### **Duties:**

---

The post-holder will work on research projects relating to Industrial Management and Engineering Design. Occasional traveling might be requested to meet the research projects' needs.

### **Qualifications:**

---

Mechanical engineering graduate (BSc and/or MSc)  
The candidate must be fluent in English and Greek.

### **Other:**

---

Experience in any of the following areas will be considered as an advantage:

- (a) Masters degree or a specialization in Industrial Management.
- (b) Applied Statistics.

The registration for a PhD degree, in association with related research interests will be particularly encouraged.

### **Salary:**

---

The salary will be between €1400 to €1800 (gross salary) per calendar month, depending on qualifications and experience
