

ACADEMIC VACANCIES

Frederick University invites applications for **Visiting Academic** positions in the **Department of Electrical Engineering, Computer Engineering and Informatics** in the following academic domains:

- **Software and Web Engineering**
- **Computer Systems and Architecture**
- **Computer Networks and Cybersecurity**
- **Database Systems**
- **Artificial Intelligence, Machine Learning and Data Science**
- **Human-Computer Interaction and Interactive Systems**

The engagement with the university will involve teaching in Hangzhou Dianzi University in China for a minimum of a two-month period and can be either short-term (2 months) or fixed-term for one-year contract with an option or renewal. It is clarified that in case of annual contract the Academic is expected to teach in China for a minimum of 2 months.

The university offers very competitive compensation packages and the engagement is expected to start in Spring 2027 or Fall 2027.

The applicant must hold:

- A Doctoral degree in Computer Science, Computer Engineering, Informatics, or a closely related field.
- Related internationally recognized research work.
- Prior experience in teaching at university level, which will be considered a strong advantage.
- Very good knowledge of the English language.
- The ability and willingness to be based in Hangzhou, China, for the required teaching period.
- Strong communication, collaboration, and intercultural skills.
- Preference will be given to applicants with prior academic experience.

The application must include:

- A cover letter stating the applicant's interest in the position and indicating availability to assume duties.
- A detailed Curriculum Vitae in English.

Interested applicants must submit their applications electronically to vacancies@frederick.ac.cy with subject "Visiting Academic_DECEI" no later than **15 November 2026**.

Frederick University reserves the right to extend the applications deadline.
