
Accounting and Finance

Study Accounting and Finance

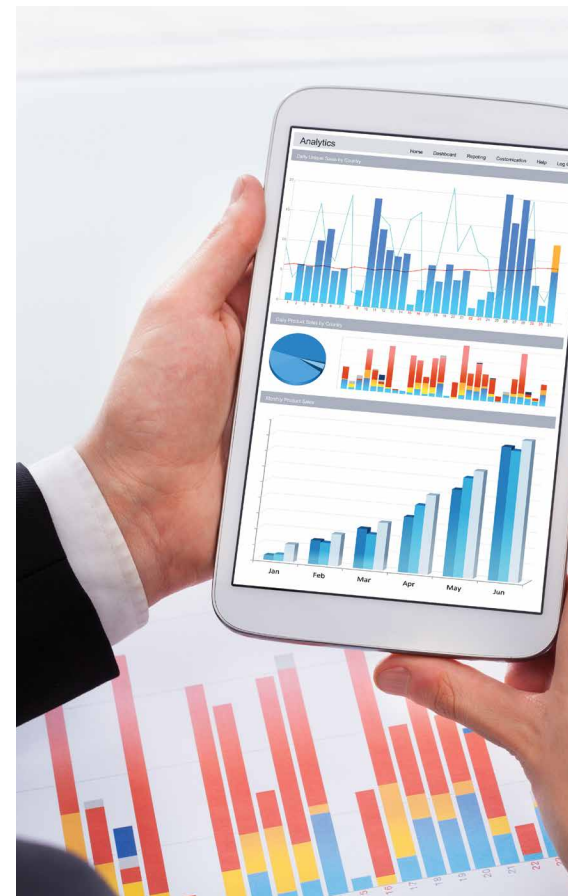

and become a valuable asset for every company

A career in accounting and finance is one of the most versatile careers one can pursue. The success of any business depends on skilled professionals in charge of preparing financial statements, keeping tax records, and auditing internal statements and procedures. In addition, every company needs a specialist who can evaluate investment decisions, secure funds, manage relationships with stakeholders such as banks, insurance companies, and the stock market, deal with risks, predict market trends related to interest rates and capital funding, and assess the country's macroeconomic environment. Accounting and finance is one of the three functions through which a business is managed (production and marketing are the other two), and the way a company is managed can make the difference between failure and success! If you want to become the most valuable asset of a business, then studying Accounting and Finance is most probably the best option for you.

BA in Accounting and Finance

The program provides academic knowledge and practical skills that will prepare you to launch a successful career or to further your academic studies. This truly innovative program offers a unique combination of accounting and finance knowledge. You will have the opportunity to receive practical training and obtain international professional qualifications, which will open up a world of career opportunities for you in accounting positions and in the financial services sector.

Graduates of this program work in accounting and auditing firms, banks, financial consultancies, and investment firms. Also, graduates of the program can seek job opportunities, in the public and private sectors, in positions requiring knowledge of accounting and financial analysis.

You can find employment immediately after graduation, in the private or public sector as an Accountant, Actuary, Auditor, Financial Analyst, Financial & Investment Manager, Stockbroker.

You will be able to set up your own accounting firm or investment consultancy.

You will have the maximum exemptions from the following professional exams:

Up to 9 out of the 13 exams of the Association of Chartered Certified Accountants (ACCA).

12 out of the 17 exams of the Association of International Accountants (AIA).

Up to 8 out of the 15 exams of the the Institute of Chartered Accountants in England and Wales (ICAEW).

5 out of the 6 exams for the ICAEW Business and Finance Professional (BFP) diploma.

In addition, you will be able to claim a full exemption for the ACCA Foundation in Accounting (FIA) qualification. You will also meet the minimum requirements for the Certified Accounting Technician (CAT) qualification.

“A journey of unique knowledge that fully prepares you for your professional and academic future.”
Mercourios Kypraios, graduate

“Upon graduating from Frederick University, the doors for my professional career opened wide! At the university, I acquired the knowledge, which I later had the opportunity to put into practice. Frederick University was the beginning of achieving my professional goals.”
Stelios Kafouris, graduate

“It is incredible to be generously given knowledge, skills, and the ability to dream. An experience full of excellent quality of knowledge that lasts forever. This is Frederick University.”
Eleni Maragaki, graduate

“My program of study is both about accounting and finance; I get to discover both worlds and the world in-between them. Therefore I have well-rounded and diverse knowledge and understanding of the entire sector. I was delighted to discover that you are granted ACCA exemptions while pursuing your degree at Frederick University. Finally, all professors are up-to-date with the new financial trends in the world and they constantly share their personal experiences in the market, which is undoubtedly helpful.”
Yara Tarazi, student
